

AIM for SEVA

Educating Rural India

THE ROAD AHEAD

“ Danam is twice blessed.  
It blesses the one who gives  
and the one who receives them. ”

- Pujya Swami Dayananda Saraswati

AIM for Seva is a registered pan-India organization founded by Pujya Swami Dayananda Saraswati. We began our journey to educate and transform the lives of children in rural India in 2000. With a deep understanding of problems faced by children in rural India: commuting long distances to school, domestic pressures, financial strains, lack of extra-curricular activities and much more, AIM for Seva introduced the concept of Free Student Hostels.

Our Free Student Hostels provide complete care to the students, during the critical phase of their mental and physical growth, from Class 4 to Class 12. Nurturing environment, value education, academic coaching, nutrition, health and hygiene awareness, and much more contribute to the students' growth. Self-confident, disciplined students are a welcome addition to any organisation; each student graduating from an AIM for Seva hostel contributes to his or her family, to the community, and thereby to the nation. Today, we have 95 Free Student Hostels across 16 states in India enabling children in rural India to realise their full potential.

## Our Impact

8272 students from rural India are being supported to pursue their dreams.

95% of our students cleared the class 10 board examinations.

90% of AIM for Seva students cleared the class 12 board examinations.

School dropout rate reduced by 90% among children enrolled in the Free Student Hostels.

1439 students went on to pursue higher education in a college.

20% of our students have found employment in global organisations like Wipro, Tata Consultancy Services, Sundaram Finance Ltd. and ICICI Bank.

5,000,000 meals served in a year.

20 million lives impacted across 16 states in India since 2000.

# Reach Out

Our vision for the future is clear – to set up more hostels in some of the country's most backward regions and create a brighter future for socially and educationally disadvantaged children living in rural India. Here is a look at our new projects for 2018 - 2019:

# Free Student Hostel

## How Does A Project Begin?

### 1. Choosing A Location

A complete analysis is done on the district and village in particular. The survey will reveal the student population in surrounding villages, profile of the community, income levels and main occupation in the region. Importantly, AIM for Seva will assess the literacy levels. A few other parameters that we look out for:

1. The proposed site has to be within or near a school, preferably within a 3 kilometer radius
2. The land has to be accessible or near a main road
3. Safety and security checks need to be made
4. The school needs to have classes up to class 12

### 2. Creating A Building Plan

The built up area of AIM for Seva's Free Student Hostel has to conform to the Juvenile Justice Act and local jurisdiction of each state. The required area as per JJ Act to accommodate 50 children are:

• Dormitory	2000 sq.ft for
• Class Room	600 sq.ft. for
• Sick Room	750 sq.ft for
• Kitchen	250 sq.ft
• Dining Hall	800 sq.ft
• Store	250 sq.ft.
• Recreation Space	300 sq.ft.
• Library	500 sq.ft.
• 5 Bathrooms	25 sq.ft each
• 8 Toilets	25 sq.ft each
• Office Room	300 sq.ft.
• Warden Room	200 sq.ft.
• Counselling Room	120 sq.ft.

### 3. Procuring Approvals

AIM for Seva adheres to state norms and guidelines, and takes all the necessary certifications and licenses before we begin the construction of a Free Student Hostel.

### 4. Finalising the Project Plan & Cost

Located in villages, the contractors and materials will be locally sourced, but the project will be overseen by the AIM for Seva Central Office team in Chennai. Estimates and plans from three reputed contractors will be internally reviewed and one of them will be selected to execute the project. The costs may vary according to each state and location, but here is general outline of construction schedule:

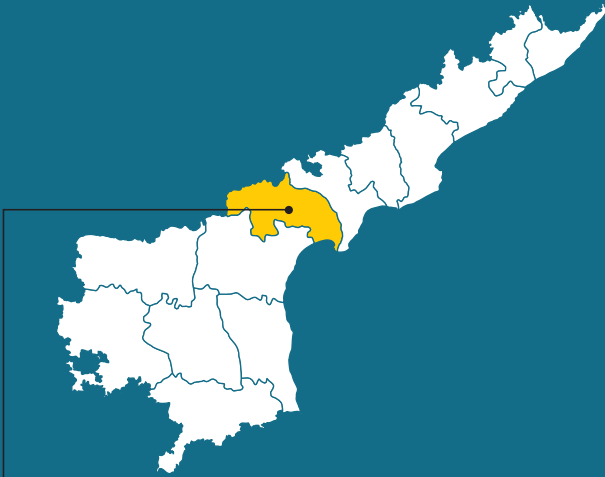

Construction Plan & Cost		
A Free Student Hostel for 120 Children*		
Phase	Floor	Cost
Phase 1	Ground Floor	\$ 100,000
Phase 2	First Floor	\$ 75,000
Total Cost		\$ 175,000

## FREE STUDENT HOSTEL FOR BOYS

**Velampeta Village**  
Kaikalur Taluk  
Krishna District

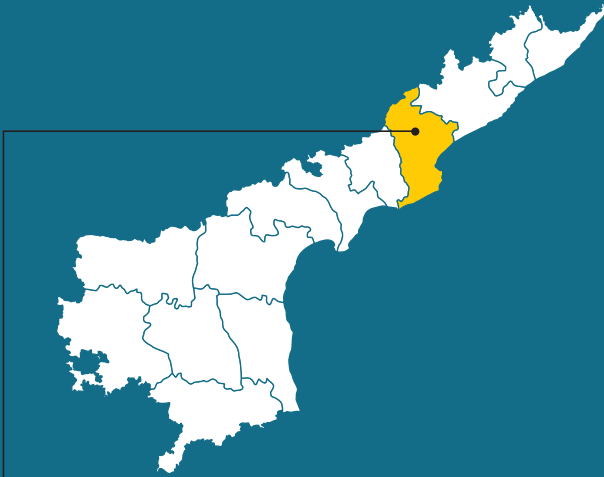

In Velampeta village located in Kaikalur taluk, Krishna district in Andhra Pradesh, AIM for Seva already has a Free Student Hostel for Boys. The current premise is home to 20 boys. Boys living in this hostel are sons of farmers and daily wage earners.

A majority of them are first generation learners. Inaugurated in 2012, the hostel has earned itself a good reputation and there has been an increasing demand by the local communities to admit more students. Currently, functioning out of a 150 year old property, there is a need to construct a new building. As there is sufficient land space within the existing premise, we have agreed to construct a new building for these boys and accommodate more students.

## FREE STUDENT HOSTEL FOR GIRLS

### Haripur Kalan Village Rishikesh Taluk Dehradun District

After in-depth field analysis, AIM for Seva decided to start a Free Student Hostel for Girls in Dujjya Wala Village. It has been functioning from a rented facility since 2011. Today there are 18 children residing in this hostel. Seeing that the facility is worked to capacity, AIM for Seva plans to move into a larger facility to accommodate more students. We have identified property in Haripur Kalan village, Rishikesh, to build our new facility for girls.

In Haripur Kalan village, we already have an active women empowerment tailoring programme that has been functioning for over 13 years. Within a 3 kilometer radius there are three schools and the proposed plot is amidst a safe and secure neighbourhood.

## EDUCATIONAL INSTITUTIONS

**Sembangudi Village**  
Kodavasal Taluk  
Thiruvallur District

**Number of students:** 1138  
(Boys: 553 and Girls: 585)

**Classes:** 6 to Class 12

**From:** 32 villages  
around Sembangudi

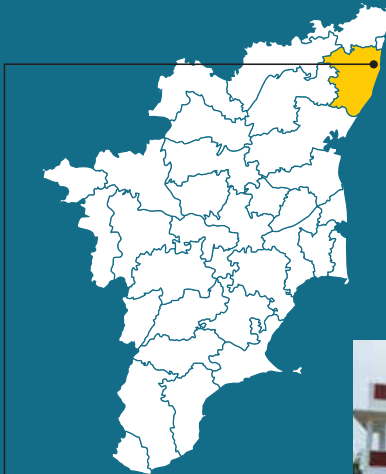

Public-spirited philanthropist Shri. S. S. Natesa Iyer understood the lack of educational facility for girls in the village of Sembangudi. He started a school in 1958, and named it after the famous carnatic musician Shri. Semmangudi Srinivasa Iyer who hailed from this village. Unable to continue their support, the trustees requested AIM for Seva to take it over. With support from its new trustees as well as with the help of the MP and Local Area Development Fund, the school improved. The older buildings were refurbished, additional buildings constructed and well-equipped science and computer labs were set up for the children. As a policy, every child who seeks admission in this school is given a place and is encouraged to stay on in school.

HEALTHCARE

Aurangabad Village  
Agra-Mathura Road  
Mathura District

Through Khilanani AIM for Seva Eye Hospital we strive to make eye care service accessible and affordable for people in rural India. Khilanani AIM for Seva Eye Hospital located in Mathura district performs on an average 20 cataract surgeries every month. The region is dry, humid and very dusty, and the villagers mostly farmers and daily wage earners, have several untreated eye conditions.

At present, with the existing infrastructure and resources, Khilanani AIM for Seva Eye Hospital has a backlog of cases needing surgery. By upgrading the facility with better technology driven equipment, we believe we will be able to double the number of cataract surgeries performed every month. People from over 30 villagers, located within a 35-kilometre radius, will benefit from this specialized eye care facility.

Phase	Requirement	Cost
Phase 1	Phacoemulsification Machine	\$10,000
Phase 2	Ambulance	\$10,000
Phase 3	Re-structuring Hospital in 3 phases - 1 <sup>st</sup> Phase	\$64,000

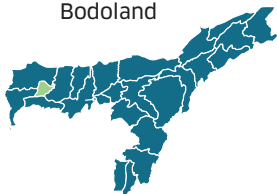

# Transforming Rural India Through Education

Within the last one and a half decades, India has managed to achieve high economic growth; however, the growth is mostly limited to the certain urban pockets of the country. New economic growth, health and educational opportunities are yet to develop in many parts of rural India. There is still a majority of people struggling for a good quality of life and livelihood.

Over the next five years, we have plans to intervene and setup Free Student Hostels and educational institutions in these regions. We are in search of a suitable land to begin our intervention in these regions.
