

AIM for SEVA
Educating Rural India

Shri Chunilal Vij AIM for Seva Chatralayam for Boys

Student Strength: 39

ACADEMICS

Students of the hostel are showing a growing interest in their academics. Many of them have a better idea of which streams to take up after high school. Parents too have shared their feedback that they find their children more disciplined and focussed.

LEISURE

Students have started spending time in the library. When we initially set up the library, it was quite a challenge to motivate the students to develop a habit of reading.

CULTURAL ACTIVITY

Celebrating rituals and festivals have broadened the students' exposure to Indian culture and tradition. Students decorate the hostels, light lamps, paint rangolis, perform plays and savour sweets and savouries. Their childhood years were devoid of such celebrations due to poor economic conditions.

AWARENESS

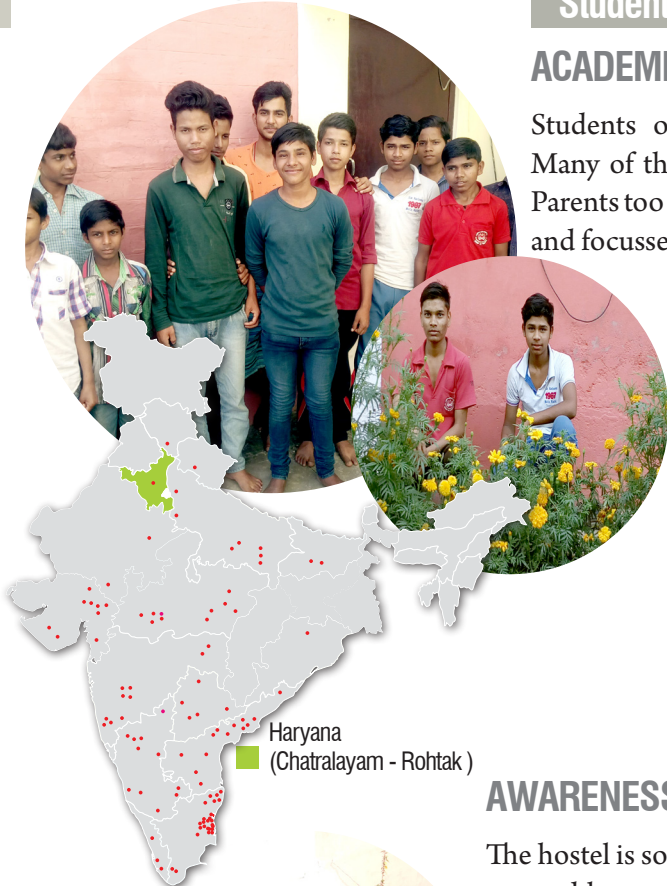

The hostel is solar powered. Students are made to understand the value of non-renewable energy resources. When these students interact with their family and friends at home, they take the message and help to create awareness. Empowering rural India is our goal and students can be the best messengers.

ENVIRONMENT

All the 39 students enjoy gardening. Flowers and vegetables make the surrounding of the hostel look green and beautiful.

SOFT SKILLS

Many a time, donors and volunteers visit the hostel. This gives our students an opportunity to come out of their shells and build their communication skills and personality.
